**Advanced Regional Center for Ankle and Foot Care
Now on Tyrone Hospital Campus**

The Tyrone office of Advanced Regional Center for Ankle and Foot Care, has relocated and is now located on the Tyrone Hospital campus at 221 Hospital Drive in suite 5.

Services at Advanced Regional Center for Ankle and Foot Care are provided by L. Jolene Moyer, DPM, Matthew Sabol, DPM, and William J. Wiedemer, DPM, And Gary Raymond, D.P.M. All of the physicians are either Board Certified or Board Qualified. Most of the physicians at Advanced Regional Center for Ankle and Foot Care are members of the Tyrone Hospital medical staff.

Advanced Regional Center for Ankle and Foot Care is a regional referral center for ankle and foot deformities and injuries that now has an office in Tyrone along with Altoona, State College, and Ebensburg. The podiatrists care for patients with complex podiatric needs and receive referrals from throughout central Pennsylvania and Maryland. The practice uses the newest technologies available to provide state of the art care for patients.

Advanced Regional Center for Ankle and Foot Care provides podiatric care for the whole family from children to geriatrics. Disorders treated include but are not limited to fractures of the ankle and foot, ulcers, bunions, hammertoes, ingrown nails, thick nails, ankle, foot and heel pain, corns and calluses, plantar warts, and children's foot deformities. The practice also offers patients alternative treatments such as participating in ongoing research studies sponsored by pharmaceutical companies.

Advanced Regional Center for Ankle and Foot Care participates with most major insurance companies. Early morning, lunchtime, and evening hours are available for the convenience of our patients. For an appointment in Tyrone please call (814) 684-0410.
